

Big picture: Lamuri adalah wajah komersial dan experience brand. PlatformBelajar Pro adalah mesin operasionalnya. Seluruh kelas, akun, pembayaran, enrollment, dan aktivitas belajar bertemu pada satu integration core yang dimiliki Parameter.

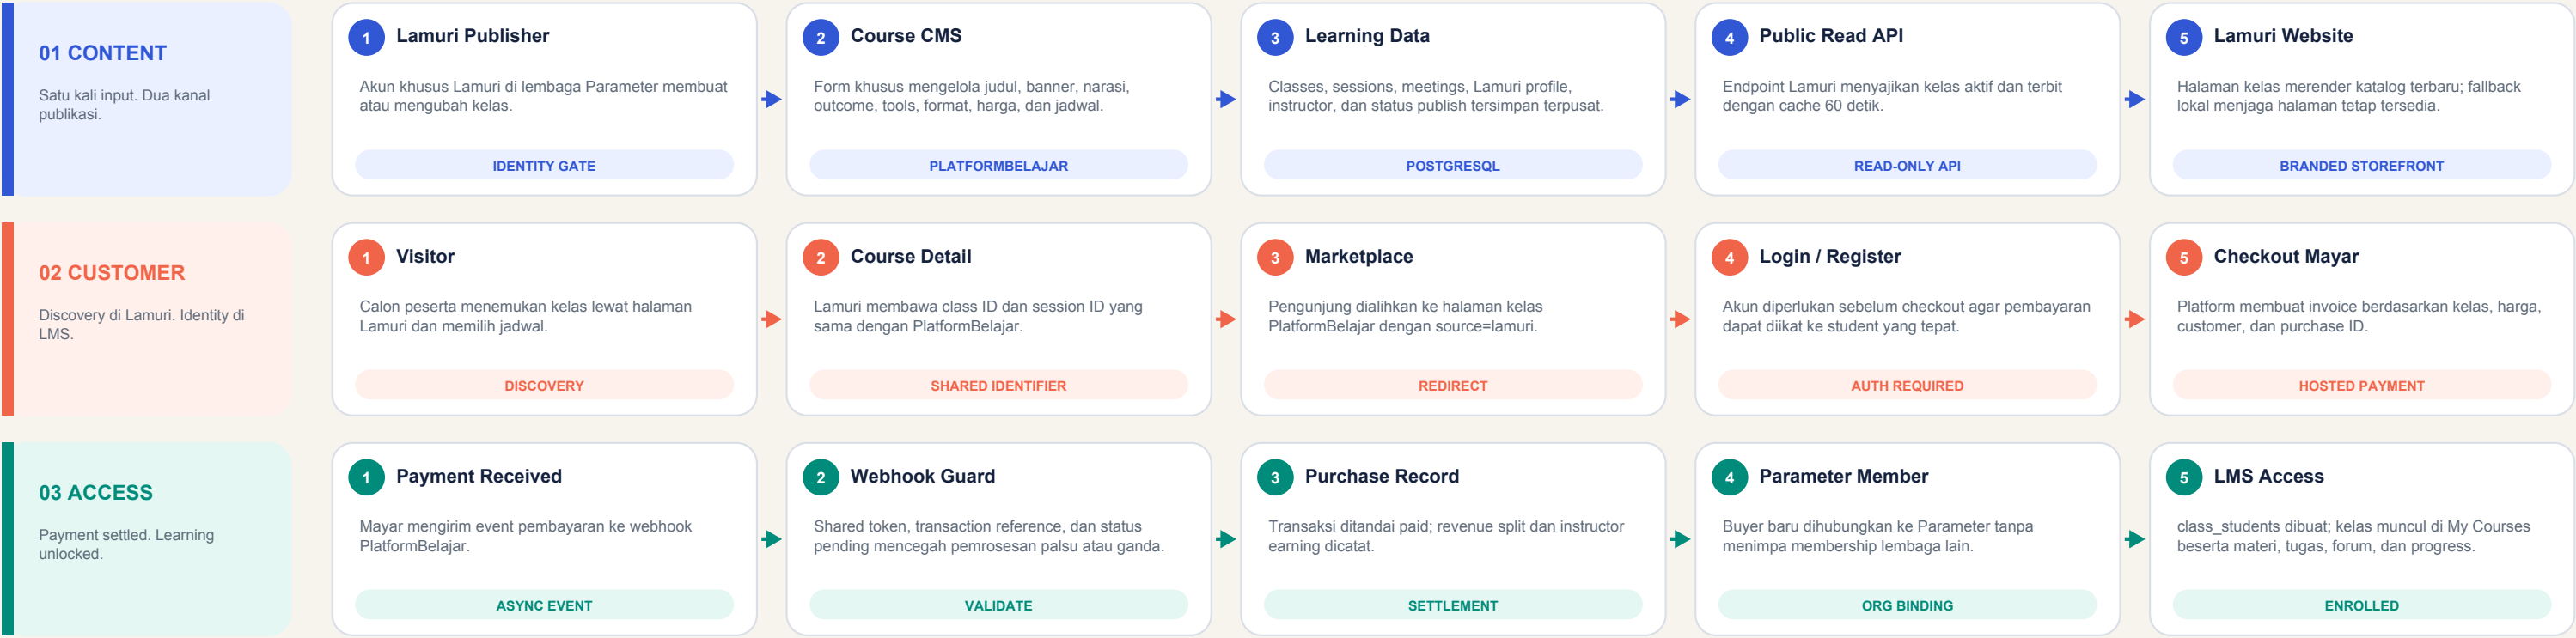

ROADMAP	LIVE	NEXT	30-60 DAYS	SCALE
	Integrated foundation CMS, catalog API, Mayar, auto-enrollment	Reliability hardening Central scope policy, signed service access	Operational visibility Sync health, webhook replay, alerting	Growth intelligence Attribution, funnel, cohort performance

Operating principle: PlatformBelajar Pro adalah source of truth untuk katalog, transaksi, identitas, dan aktivitas belajar. Lamuri berperan sebagai branded storefront. Mayar memproses pembayaran, lalu webhook PlatformBelajar memberikan akses LMS secara otomatis.

End-to-end integration flow

Solid arrows = synchronous hand-off | Webhook = asynchronous settlement

BOUNDARY RULES

Marketplace tetap terpisah dari katalog internal

- marketplace_listing = 1 menjadi penanda eksplisit kelas Lamuri yang dijual publik.
- Organization ID Parameter tetap dipertahankan untuk membership otomatis setelah pembayaran.
- Kelas Marketplace tidak tampil di Pilih Kelas Baru atau Katalog Lembaga Parameter.
- Katalog lembaga hanya memuat kelas Internal + aktif + berbayar; buyer Marketplace tetap melihat kelasnya di My Courses.

CONTROL PLANE

Siapa mengelola apa

Lamuri Publisher

Konten kelas, banner, harga, jadwal, publish

PlatformBelajar

Identity, katalog, transaksi, enrollment, LMS

Mayar

Invoice, kanal pembayaran, payment event

Admin Parameter

Membership, operasi student, dukungan kasus

ROADMAP

From integrated to observable

LIVE

Integrated foundation
CMS, API catalog, redirect checkout, webhook, auto-enrollment

NEXT

Reliability hardening
Central publish-scope policy, signed service access, webhook replay

30-60D

Operational visibility
Sync health, failed-payment queue, alerting, audit dashboard

SCALE

Growth intelligence
Lamuri funnel, attribution, cohort performance, campaign insights
